**What are you waiting for?
This is a fantastic opportunity to promote yourself
and your company to a global audience.**

**We want you to share your exciting end user case studies
or interesting project experiences in 4IR for Manufacturing?**

**We have made it simple - all you need do is click on the
"Submit your Abstract" button above and complete the form.**

Smart factories are a key component of Industry 4.0 and the transition towards brilliant enterprises. These factories utilize advanced technologies such as artificial intelligence, internet of things (IoT), and data analytics to optimize manufacturing processes and improve overall operational efficiency. Smart factories are driving the transformation towards brilliant enterprises by enabling organizations to leverage cutting-edge technologies for enhanced productivity and competitiveness in the global marketplace.

Primary topics of interest are:

- How are we evolving The Smart Mine and The Smart Factory?
- What is the impact of Artificial Intelligence in the Industry?
- How is the Mining and Manufacturing Industry moving towards Industry 5.0

We welcome your abstracts

- Case studies and success stories (feasibility studies, implementations, ROI, and other achievements)
- Research & Development and new trends in Smart Mining and Smart Manufacturing
- How is the Mining and Manufacturing sector driving towards operational excellence and promoting innovation.
- Sustainability Solutions

The deadline for abstract submission is 31 July 2024

This should be in the form of a short Abstract defining your topic
Please state 2 – 3 take aways that people will get from your presentation.

The final presentation submission must be submitted by 13 September 2024

Please include short biography and picture (head & shoulders 300dpi)
All submissions will be considered by the MESA Africa Executive Committee and rated against the theme content and relevance.

Authors will receive notification indicating whether Abstract was accepted/declined by 31 August 2024

Successful authors will then be advised of presentation date and time for their presentation. The presentation should be completed in 20 minutes with an additional 5 mins or Q & A. In the two weeks leading up to the event all presenters will have a virtual meeting / dry run and Q&A with the hosts to enable any technical and presentation issues are addressed. This is to ensure we provide an excellent event to international standards.

All bonafide speakers may attend the event on a complimentary basis (T&Cs apply)
